## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 19-21, 23-34 and 36-49 are allowed.
2. The following is an examiner's statement of reasons for allowance: The claims call for a device that measures water vapor flux with a cylinder and a sensor. The sensor is located in some proximity of a hole in the cylinder and the sensor is claimed to either be partially inside said cylinder wall hole, or completely outside the cylinder. The closest prior art reference, also belonging to the applicant, (U.S. Patent Number 6,439,028) has the sensor located inside the cylinder and no hole in the cylinder wall. Thus, the specific arrangement of the sensor to the cylinder, in combination with all other limitations of the independent claims, is not disclosed nor deemed obvious in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
